A revolutionary multi PDP  
Infinitely expandable multi PDP

Infinitely expandable Multi PDP

## M-PDP will change the way it shows.

The innovative M-PDP allows you to give a huger world and show up to unlimited size.

M-PDP is designed to provide larger display for advertising, monitoring and controlling. M-PDP is a super thin & digital multi-display developed by ORION

PDP leading-edge digital technology. ORION PDP M-PDP is tailored to facilitate functionalities and make your business environment more efficient for a large place and digital era.

More than 4 planks are combined into a huge PDP display with thinnest seam. This is the representative character - infinitely expandable.

With M-PDP, you are no longer confined to a limited number of monitors.

No space is wasted for installment for its remarkable 10cm in thick.

# Just Ask For It

# 4 sides DZF technology implement seamless M-PDP

M-PDP come with an advanced ORION PDP technology-4 sides DZF (Dead Zone Free) technology making it possible not to have nonluminant area to the edge of each panel.

It gives an excellence in continuity of displays with less than 4mm seam when consisting multi and improve the uniformity remarkably

with 4-sides glass edge structure technology.

The newest developed edge structure allows for impressive reduction between screen. Picture can now appear as one complete image.

Conventional PDP has its pad connected to circuit on the 3 or 4 sides of non-luminant area of front side of panel. Therefore they have

more than 100mm seam between panels.

- See the comparison between M-PDP and conventional multi PDP.

PDP technology latest revolution

Huge digital images spread before your eyes

M-PDP is the world standard multi-huge display in control room, advertising, conference room, lobbies, public transportations, event hall, surveillance, broadcasting, shopping mall and etc.

ORION PDP M-PDP is renowned for its flexible, market-specific approach, successfully implemented in over a thousand places world wide.

It provides wide viewing angles, flicker-free pictures, clear images and room-saving design.
