ICCA - GALA DINNER

45TH INTERNATIONAL CONGRESS & CONVENTION ASSOCIATION - RHODES 2006

OCTOBER 29th - NOVEMBER 1st - RHODES GREECE

A well-know annual congress around the globe came to our country after almost 20 years! In this year's General Assembly and Congress our company was the official technology partner.

It took place in Rhodes in the Capsis Convention Center, which hosted more that 800 attendees. We had in our responsibility 6 venues in the Medieval City of Rhodes, as for the first time in the history of the Organization all the Chapter meetings took place outside, 11 parallel workshop & sessions in the hotel as well as the Plenary Hall.

Our company's production team produced an opening ceremony hosted by Mrs. Irivi Varda-Capsis and Mr. Podimatas who introduced Greece through the five senses with a perfect mixture with Greek traditional music and dancing. All these where realised through a large screen 12x4, 3 Barco projectors R10, lighting equipment and Meyer Sound system Moreover, a second production team themed the Gala dinner night in the most spectacular way possible! Named

"The Mistique Deep Blue" the hall was fully colored blue by our Lighting Director and his team. Each table lighted individually by par that where hanged from the ceiling, Martin Moving Heads 2000 Profile & 700 Profile and Wash lights. Furthermore, the surrounding walls were transformed into an aquarium from the projection of 4 Hi-End DL2, one of the company's most recent acquisition! An event full of supprises for the audience, as after the usual speeches a group of dancers hanged from the ceiling took over the floor offering an amazing performance! And when everybody thought that everything was over, a breath-taking laser show for the Lost Atlantis closing with the logo of ICCA sealed the evening in the best way possible!

A unique outcome, of which we are mostly proud!
